

Woodworking

Published: 13.08.2024.

Translated by machine translator

Be prepared for the visit of the State Labour Inspectorate (SLI) and arrange the work environment yourself! In preparation for thematic inspections in a wood processing undertaking, the SLI has developed a self-control form for enterprises in this sector with the most important labour protection requirements. The table also contains links to related laws and regulations and explanatory materials that allow a better understanding of the measures to be taken in the field of labour protection.
